Features

1. Many kinds of super heating modules, suitable for tire

sizes from moderate size to 1200mm.

2. You can get the operating bracket moving

higher/lower, or right-and-left revolving at will.

3. It's very convenient and less force is needed when

you fit your tire because of its flexible upper revolving

arm.

Operating procedure

1. First of all, turn on the power, press the up/down

switch according to your need. it can be heated

individually.

2. you don't need to move them when you repair heavier

tires. You just need to get the operating bracket

moved higher/lower, revolved right-and left to

complete the repair of the tires.

Technical parameters

1. Power supply voltage: 220/50hz
2. Max current: **5A**
3. Rating power: **400w x 2**
3. Insulating Resistance: $\geq 5\text{ M}\Omega$

Caution

The power supply voltage must be kept steadily when

the machine is running. Otherwise a voltage stabilizer

Shall be installed
